The great IT event of the Costa del Sol
Malaga, October 25, 2025

What's BiznagaFest?

At **BiznagaFest**, during a day filled with **sessions** and **workshops** in the **vibrant** and **technologically** advanced capital of the Costa del Sol, world-renowned **experts** from various fields and disciplines come together.

With an attendance rate exceeding **90% of technical profiles**, BiznagaFest stands out as one of the most important **technology-focused** events in Andalusia, bringing together around **750 people**.

This event serves as a **meeting point** where **young talents** and **industry veterans** gather to share knowledge and establish solid **professional relationships**.

BiznagaFest has been the stage where **prominent experts** from leading national and international technology companies have participated, such as **Google, VirusTotal, Deloitte, Red Hat, Chainalysis, Sngular**, among others.

Why collaborate with BiznagaFest?

Collaborating with BiznagaFest offers an exceptional opportunity to connect with both **junior** and **senior** technology industry professionals in a **unique, dynamic and warm** environment.

Each collaboration has been meticulously designed to help our collaborators **achieve their goals** effectively, integrating **organically** into the development of the event.

At BiznagaFest, we value **quality over quantity**. Our collaborations do not simply seek to generate a one-time publicity impact, but to provide **significant value** to both attendees and our collaborators, creating **memorable experiences and lasting relationships**.

Profile of our attendees

Presence in the media

The **media** highlighted **BiznagaFest** as a **reference event** in the field of **software development** both in **Malaga city** and the rest of the province.

Six newspapers and the Press Association of Malaga presented a total of 13 news pieces that offered a complete coverage of the event. Diario SUR (Vocento Group) was the media that gave the greatest diffusion to BiznagaFest, reaching a **wide and diverse audience in the technological field**.

The **diversity of activities** offered during the BiznagaFest was highlighted, from conferences to demonstrations of new technologies, underlining its **relevance as a platform** to promote knowledge and innovation in software development, as well as its **positive impact** on the local technological ecosystem by fostering networking, promoting training and collaboration between professionals and start-ups.
